## One Negro Is Killed; Another Is Injured

STRUCK BY INTERURBAN CAR  
LAST NIGHT AT WIL-  
LIAMSTON

SITTING ON TRACK

And Apparently Were Either Dead  
Drunk or Had Fallen Asleep  
—Brought to Anderson.

One negro was killed and another seriously injured last night by the last Piedmont & Northern car from Greenville to Anderson. It is said that both, whose names it was impossible to learn, were sitting on the track just this side of the trestle at Williamston and there being a curve there, the motorman was not able to see them in time to bring the car to a stop before striking them. The injured negro was brought on to this city and sent to the county hospital. The body of the dead negro was also brought to Anderson and was taken to Tolly's undertaking establishment on East Whitner street.

Conductor S. J. Moorehead and Motorman I. O. White were in charge of the car which struck the negroes until it reached Belton, when it was turned over to Conductor Bowen and Motorman Sanders. It being impossible to get in touch with either of the first men mentioned, accurate details of the affair could not be gathered last night.

From the story as told by those in charge of the car when it reached Anderson the two negroes were sitting on the track just this side of the trestle at Williamston. There is a curve in the road which causes the headlight not to shed its rays on the track except for a few feet in front of the car and it is supposed that the negroes were not seen until the train was right upon them. It was stated that Motorman White applied the brakes and brought the car to a sudden stop but not until after the negroes had been struck. After a few minutes the negroes were placed on the car and brought on to Anderson.

The dead negro seems to have been struck on the head, and nearly all of one side was knocked off. He was otherwise bruised and cut up about the head and shoulders.

It was not known last night how serious the other negro was injured but there was a deep hole knocked in his head. He was questioned before being taken to the hospital but was not able to tell anything about the accident. He said that he did not remember being on the track and did not know how he got hurt. He denied knowing the other negro and said that he had never seen him before. It seems that both were dead drunk and were probably asleep.

Dr. Moore of Tuccaup happened to be on the car and rendered what medical attention he could to the injured negro before reaching this city.

PRELIMINARY HELD  
YESTERDAY AT IVA

OSCAR CORLEY ARRAIGNED  
CHARGE ASSAULT WITH  
INTENT KILL

Scott Negro's Condition is Very  
Serious and He is Not Ex-  
pected to Recover.

Oscar Corley, the negro who shot and seriously wounded Will Scott, a negro at Iva on Wednesday night, and who later fired into a house at another negro, was taken to Iva yesterday morning by Deputy Jim Williams to stand preliminary before Magistrate J. A. McAllister in the latter case, charged with assault with intent to kill. The case was sent to higher court.

Mr. Williams stated last night that the physician at Iva who was attending Scott said that the negro had one chance out of 100 to live, his condition being very serious.

If Scott dies, the charge of assault with intent to kill, on which the preliminary was held yesterday morning, will be dismissed and Corley will be tried for murder.

### FIGURES OF FIRE LOSS

Chief Jackson Has Compiled Figures  
of Blue Ridge Fire.

Fire Chief Jackson has obtained and compiled final figures of the fire loss as the result of the big fire in May which started at Blue Ridge railway yard.

The losses as compiled by Chief Jackson are as follows:

Owner	Loss	Insurance
P. & N. Ry.	\$26,000	\$22,000
T. Q. Anderson	12,500	5,700
Blue Ridge Ry.	11,784	1,838
J. E. Barton	5,025	523
Chero Cola Co.	165	165
Totals	\$55,474	\$30,238

The losses exceed the insurance by \$25,236.

And the early tomat sometimes spoils the calculations of the early bird.

## FIRST BALE COTTON WAS SOLD YESTERDAY

WEIGHED 595 POUNDS AND  
WAS BOUGHT AT 10  
CENTS A POUND

MR. JOHN C. PRUITT

Of Starr Was the Seller—Was  
Five Days Later Than First  
Bale Last Year.

The first bale of this season's cotton was brought to the city yesterday morning about 11 o'clock by Mr. G. W. Yeargain, a tenant on the farm of Mr. John C. Pruitt of Starr. The bale belonged to Mr. Pruitt and was bought as strict middling. Two buyers of Anderson, Messrs. J. T. Pearson and R. S. McCully, went in together and bought the bale weighing 595 pounds, the price of 10 cents a pound being paid.

Mr. Pruitt is one of the most extensive farmers in this section of the state, and is a cotton raiser of note. On Thursday he got his hands out to picking the staple and in a little while they had enough for a bale. It was carried to the gin yesterday morning and later brought to the city. It stayed on the square for a long time and of course since it was the first new bale, everyone passing had to go out and pull out a sample of the fleecy white stuff.

The first bale appeared this year five days later than the first one last year, both bringing the same price per pound. The one last year was raised by Mr. R. W. Pruitt of this city, and was bought by the Riverside mills.

The first bale in 1913 was raised by Mr. John A. Pruitt and was bought by the Toxaway mill. The price was 15 cents a pound.

## MANY BUYERS ARE IN NORTHERN MARKET

MR. B. O. EVANS STATES  
THAT MANY ORDERS ARE  
PLACED

BUSINESS IS GOOD

But Wool Supply is Running Short  
and Clothing Will be Little  
Higher in Spring.

Mr. B. O. Evans, of the firm of B. O. Evans and company, on his return trip from New York stated to a representative of The Intelligencer yesterday that he was very much impressed with the favorable conditions found in the north and that he thought business would be a great deal better this coming fall and winter than it was last, certainly there more buyers in New York.

"The buyers are making their purchases late," stated Mr. Evans, "and are buying conservatively. Many of the retailers did not make purchases from the traveling salesmen for they are waiting to see how conditions would be later. This helps account for the fact that there are so many in the markets at this time."

"One big clothing dealer," continued Mr. Evans, "told me that their firm had an order from the Italian government for 500,000 overcoats, a \$2,500,000 order. Another told me that they were making overcoats for the English. One man stated that one of the manufacturers from which he bought cloth had two big mills and that one of these was making cloth especially for the allies. The fact that so many overcoats and heavy goods are being bought seem to indicate that the allies are planning for another winter campaign.

"Clothing will be a little higher because the allies are consuming nearly all of the wool and the supply is scarce. This increase will not be felt so much this fall and winter but next spring there will be an increase of about 25 per cent. The mills are going to charge about 25 per cent more for their woolsens and this will necessarily force the price of clothing up."

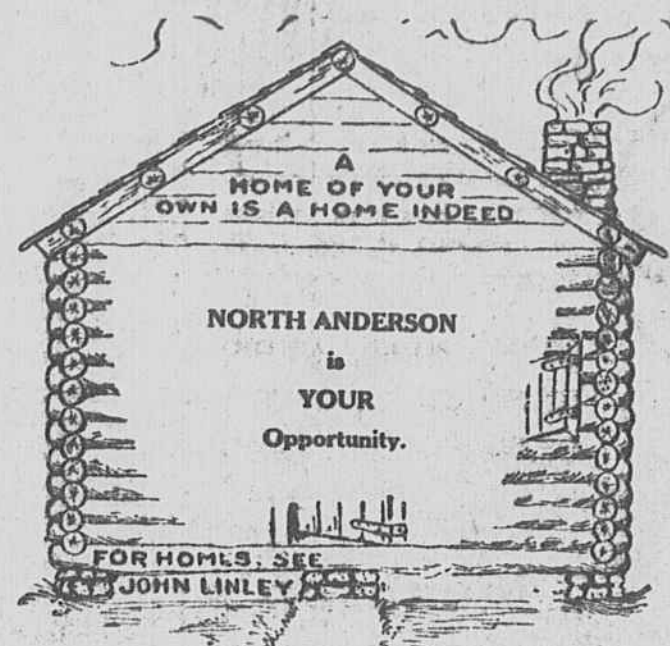

Mr. Evans stated that he had bought a complete and up-to-date line of clothing and goods for the army and that the goods were beginning to arrive daily. He stated that when all arrived his stock would be the most complete that he had ever carried.

### ANNOUNCES OPENING

Messrs. Bob and Bill Robinson to  
Occupy Store.

"After September 1, this store room will be occupied by Bob and Bill Robinson," reads a banner placed on the front of the store room on West Benson street formerly occupied by W. S. Breazeale, tailor.

It is understood that these gentlemen will open up a first class and complete line of groceries in this building.

## What Do You Think of Anderson?

## Do You Believe in Anderson?

You have lived in Anderson for the last 25, 20, 15, 10 or 5 years! Have you been watching, and do you realize the rapid and healthy growth of this City?

Do you ever take your spare time to drive or walk over the new sections of the City? Have you tried to anticipate which way the City is making the greatest strides?

Have you let the past 10 years slip without being benefitted personally by this growth which you have seen? Are you going to let the next 5 or 10 years slip by without benefitting by your observations?

If so, you will be missing your opportunity. An opportunity is a fitness of time and place for the doing of a thing. It is the keen, wide awake, observing man, who profits in this day and time. He sees the opportunity and knows it is the right time and place for the doing of a thing.

NORTH ANDERSON, on high ground, away from the noise and dirt of the City; with all the modern conveniences of the City, and yet without any City Taxes, is your opportunity. It is doubly so on account of the "Profit Sharing" proposition offered you on this Assured Success.

Investigate NORTH ANDERSON Today, with the idea of making it your future home. Drive, walk or take a NORTH ANDERSON street car through this park-like development and be convinced that this is YOUR opportunity.

EXTRA portion of the Company's profits if you purchase YOUR lot during August, instead of waiting until September.

## WILL LOAN FARMERS MONEY AT 6 PER CENT

BANK OF THIS CITY  
MAKES LIBERAL  
OFFER

TRYING TO HELP

Farmers to Get a Good Price for  
Product—Must be Stored in  
Certain Warehouses.

Mr. J. I. Browne, cashier, stated yesterday morning to a representative of The Intelligencer that if conditions remained the same, the Farmers and Merchants Bank and the Farmers Loan and Trust company would loan money to the farmers at the rate of six per cent on cotton, provided it was stored in the Standard warehouse or the Farmers Union warehouse.

This is indeed a liberal offer and one that many farmers throughout this county will take advantage of. From the present outlook cotton will bring a fair price but there are many farmers who will want to hold theirs for better prices but who will have to sell unless they can borrow money on it at a reasonable rate.

Mr. Browne stated that the idea was to help the farmers all they could and allow them to get a good price for their cotton if possible.

## A Good Electric Iron

Is a necessity at any time but during the hottest weather no household is complete without one. They are so handy, efficient and cool—the cost is very, very little.
